

**INJURED WORKERS ARE
“SLEEPLESS AT QUEEN’S PARK”
May 31 to June 1, 2010!**

Why are we here, sleepless?
Our benefits are once again under attack!

In the name of the “Unfunded Liability”, the Auditor General has recommended to reduce Injured Workers’ benefits!

The WSIB says yes; reduce those benefits.
This means more poverty for injured workers. We are already suffering!

This means less coverage for our medication,
This means reduction for our medical treatments,
This means return to work faster when we are not well,

This means more re-injuries
This means more injured workers living in poverty and on the streets!

What happened to the historical compromise?
This is the foundation of our compensation system!

Sir William Meredith said:
“Compensation for as long as the disability lasts”.
Injured workers gave up their right to sue for fair compensation and for a just compensation system.
