

Injured Workers' Public Meeting for the Greater Toronto Region

Wednesday, May 19, 6:30 pm

**OISE Building
(Ontario Institute for Studies in Education)
252 Bloor St West - St. George Subway
Room 2214**

After the release of the Auditor General report, the politics of workers' compensation is changing fast! The WSIB has hired a former international banker. Premier McGuinty and the WSIB want to "save" or "generate" \$11 billion.

Does the government expect injured workers to pay again?

For Discussion

- **They call it an "unfunded liability" but is it really a debt?**
- **Who will pay? Employers? Or you and your family?**
- **What will happen to the issue of justice, not poverty, for injured workers?**
- **Will there be future cost of living adjustments?**
- **What is the response of injured workers?**

Come for an evening of information, action and satire.
